

## ABOUT US

We are a family- owned business which began in Istanbul Turkey back in 2016.

It all started with our shared love for chocolate turning into a passion, inspired by the rich history and artistry of chocolate making, we began experimenting with incorporating rich, natural Mediterranean fruit and nuts in our chocolate.

In 2018 we started exporting to multiple countries in Europe and South America and by 2021 We proudly launched our business in San Diego.

This marked a new chapter as we started importing our chocolate to share our passion with even more chocolate lovers.

Thank you for being part of our journey.
